

**CLAIM AMENDMENTS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (currently amended) ~~A graphical user interface (GUI) comprising:~~ A system for use in electronically transferring a file, the system comprising:  
a graphical user interface (GUI) comprising a first user-selectable button having associated text that includes a verbal of "attach" wherein in response to selection of said first user-selectable button a file is capable of being selected by a user without display of a user-selectable button having associated text that includes the word "browse".
2. (currently amended) The GUI system of claim 1 wherein the verbal comprises an infinitive of "attach".
3. (currently amended) The GUI system of claim 2 wherein the infinitive has an adjectival-use form.
4. (currently amended) The GUI system of claim 3 wherein the infinitive has an active voice.
5. (currently amended) The GUI system of claim 4 wherein the text comprises "find file to attach".
6. (currently amended) The GUI system of claim 3 wherein the infinitive has a passive voice.
7. (currently amended) The GUI system of claim 6 wherein the text comprises "find file to be attached".
8. (currently amended) The GUI system of claim 2 wherein the infinitive has a noun-use form.

9. (currently amended) The ~~GUI~~ system of claim 8 wherein the infinitive has an active voice.
10. (currently amended) The ~~GUI~~ system of claim 9 wherein the text comprises "find file which to attach".
11. (currently amended) The ~~GUI~~ system of claim 8 wherein the infinitive has a passive voice.
12. (currently amended) The ~~GUI~~ system of claim 11 wherein the text comprises "find file which is to be attached".
13. (currently amended) The ~~GUI~~ system of claim 2 wherein the infinitive has an adverbial-use form.
14. (currently amended) The ~~GUI~~ system of claim 13 wherein the infinitive has an active voice.
15. (currently amended) The ~~GUI~~ system of claim 14 wherein the text comprises "find file you want to attach".
16. (currently amended) The ~~GUI~~ system of claim 13 wherein the infinitive has a passive voice.
17. (currently amended) The ~~GUI~~ system of claim 16 wherein the text comprises "find file you want to be attached".
18. (currently amended) The ~~GUI~~ system of claim 1 wherein the verbal comprises a gerund of "attach".
19. (currently amended) The ~~GUI~~ system of claim 18 wherein the text comprises "find file for attaching".

20. (currently amended) The GUI system of claim 1 wherein the text is within the first user-selectable button.

21. (currently amended) The GUI system of claim 1 further comprising:  
a second user-selectable button having associated text that includes an imperative for  
“attach”.

22. (currently amended) The GUI system of claim 21 wherein the text associated with the second user-selectable button comprises “attach file”.

23. (currently amended) The GUI system of claim 21 wherein the text associated with the second user-selectable button comprises “attach files”.

24. (currently amended) The GUI system of claim 1 wherein the first user-selectable button is to initiate a GUI element to find at least one file to attach to a message.

25. (currently amended) The GUI system of claim 24 wherein the GUI element comprises a dialog box.

26. (currently amended) The GUI system of claim 1 wherein the first user-selectable button is to initiate a file browser of an operating system.

27. (currently amended) A system for use in electronically transferring a file, the system comprising:

a graphical user interface (GUI) comprising:

a first user-selectable button having associated text therein that includes “Find File to Attach”, the first user-selectable button to initiate a file browser of an operating system; and

a second user-selectable button having associated text therein that includes “Attach Files”, the second user-selectable button to initiate attaching one or more files found using the file browser for subsequent electronic transfer.

28. (currently amended) A method of electronically transferring a file, the method comprising:
- providing a first user-selectable button having associated text that includes a verbal of "attach";
  - in response to receiving a user selection of the first user-selectable button, initiating a graphical user interface (GUI) element to find at least one file to attach to a message;
  - receiving a selection of a file with the GUI element; and
  - uploading the file for subsequent electronic transfer.
29. (original) The method of claim 28 wherein the verbal comprises an infinitive of "attach".
30. (original) The method of claim 29 wherein the infinitive has an adjectival-use form.
31. (original) The method of claim 30 wherein the infinitive has an active voice.
32. (original) The method of claim 31 wherein the text comprises "find file to attach".
33. (original) The method of claim 30 wherein the infinitive has a passive voice.
34. (original) The method of claim 33 wherein the text comprises "find file to be attached".
35. (original) The method of claim 29 wherein the infinitive has a noun-use form.
36. (original) The method of claim 35 wherein the infinitive has an active voice.
37. (original) The method of claim 36 wherein the text comprises "find file which to attach".
38. (original) The method of claim 35 wherein the infinitive has a passive voice.

39. (original) The method of claim 38 wherein the text comprises "find file which is to be attached".

40. (original) The method of claim 29 wherein the infinitive has an adverbial-use form.

41. (original) The method of claim 40 wherein the infinitive has an active voice.

42. (original) The method of claim 41 wherein the text comprises "find file you want to attach".

43. (original) The method of claim 40 wherein the infinitive has a passive voice.

44. (original) The method of claim 43 wherein the text comprises "find file you want to be attached".

45. (original) The method of claim 28 wherein the verbal comprises a gerund of "attach".

46. (original) The method of claim 45 wherein the text comprises "find file for attaching".

47. (original) The method of claim 28 wherein the text is within the first user-selectable button.

48. (original) The method of claim 28 further comprising:  
providing a second user-selectable button having associated text that includes an imperative for "attach", wherein said uploading is performed in response to a user selection of the second user-selectable button.

49. (original) The method of claim 48 wherein the text associated with the second user-selectable button comprises "attach file".

50. (original) The method of claim 48 wherein the text associated with the second user-selectable button comprises "attach files".

51. (original) The method of claim 28 wherein the GUI element comprises a dialog box.
52. (original) The method of claim 28 wherein the GUI element comprises a file browser of an operating system.
53. (original) The method of claim 28 wherein the text is included in a tag associated with the first user-selectable button.
54. (original) The method of claim 28 further comprising displaying the text in response to a mouse-over event associated with the first user-selectable button.
55. (original) The method of claim 28 further comprising audibly displaying the text.
56. (currently amended) A computer readable media having computer executable instructions that, when executed by a computer perform a method of interfacing with a user in order to achieve selection of a file for electronic transfer, comprising:
- a plurality of instructions for:
    - providing a first user-selectable button having associated text that includes a verbal of "attach";
    - in response to receiving a user selection of the first user-selectable button, initiating a graphical user interface (GUI) element to find at least one file to attach to a message;
    - receiving a selection of a file with the GUI element; and
    - uploading the file.
